

Rondeau Provincial Park Phragmites Control

NOTICE: An aquatic herbicide application for control of Phragmites is planned for September - October 2017, in Rondeau Provincial Park.

Ontario Parks will directly notify park users before the herbicide is applied.

Start Date: September 1st, 2017 (weather permitting)

For updates visit <http://www.opwg.ca/projects-on-the-go/rondeau-bay-phragmites-control/>

Herbicide: Roundup Custom® (glyphosate) (Reg. no. 32356)

Please refrain from fishing or waterfowl hunting in treatment areas for 24 hours following herbicide application.

For more information about the aquatic herbicide application, visit the park Visitor Centre or Park office

Or contact:

Brad Connor, Rondeau Provincial Park Superintendent
